5 steps to improve

1. **Discover**
   - Filter by Mathematics, English and Science
   - Browse existing tasks and questions
   - Use shared and standardised questions

2. **Personalise**
   - Add your own class to a task
   - Select your students
   - Identify the type of task

3. **Create**
   - Build your own task template
   - Choose and add questions to your task
   - Review and assign your task to students

4. **Access**
   - Students access the task pin
   - Students attempt the task
   - Student tasks accessible to parents

5. **Review**
   - Results instantly generated to a student
   - Activities assigned where required
   - Individual and class reports for teacher
